In Brief

I'm a talented and hard-working programmer looking for a challenge. My practical experience is largely in programming for the web but I'm also confident writing standalone applications. I have a talent for translating requirements described in plain english into working solutions.

Skills (Ability/5)

Languages:

PHP (5)
ASP (4)
Perl/CGI (5)
C# (4)
.NET (4)
Visual Basic (3)

Education

B.Sc. Honours Science with Scientific Computing Option
University of Waterloo, 2004

Personal Interests

Ever since I started using BASIC in my Commodore 64 days, I've spent a fair amount of my free time on the computer. When I'm not at my desk I can be found cycling, rollerblading, peering through telescopes, camping, reading, travelling or any combination thereof.
